

2:5

A hand-drawn diagram illustrating a crystal structure. The top part features a wavy line with several peaks. The peaks are labeled with numbers: 204, 212, 216, 220, 224, 228, 232, and 236. Below the wavy line are several horizontal lines of varying lengths, suggesting a layered structure. At the bottom is a rectangular block labeled 124.

A cross-sectional view of a multi-layered structure. It consists of a base layer 304, a middle layer 308, and a top layer 320. The middle layer 308 features three raised regions 312, 314, and 316, each with a series of horizontal lines above it. The top layer 320 is a thin layer on top of the middle layer.
